More Pregnancies

Increasing the number of cows bred is the most effective way to increase the number of pregnancies. By using **ASAP**, you breed all of your cows by appointment without the need for heat detection.

SOURCE: ??????

Tim Seebecker - Mauston, WI

“I am breeding more cows and getting them pregnant earlier in lactation, which has led to decreasing their days open. Also, I am starting to have an abundance of calves with no place to put them.”

More Profits

ASAP will help you achieve:

- ↑ Pregnancy Rates
- ↑ Voluntary culling decisions
- ↑ Replacement dairy heifers to bring a new income
- ↓ Heifer-freshening ages
- ↓ Calving intervals

SOURCE: ??????

Curt Messer - Beaver Dam, WI

“Since we started using the ASAP program, we have not culled one cow due to reproductive issues. So, now, I have a lot of pregnant cows, and you know that’s where the money is.”

Comprehensive Reports

ASAP can provide you with useful reports for different aspects of reproduction with in your herd.

ASAP REPORTS:

- **ALL ANIMALS**
- **CURRENT EVENTS**
- **FUTURE EVENTS**
- **PREGNANT COWS**
- **PREGNANCY CHECK**
- **SYNCHRONIZATION GROUP**
- **REPORT FOR SPECIAL GROUPS**

Dan & Kay Breunig - Dane, WI
“The ASAP program has many good benefits. One of them is being able to track the cows more effectively. In addition, we do like using the printed reports when we are conducting our pregnancy checks.”

Simplify Repro Management

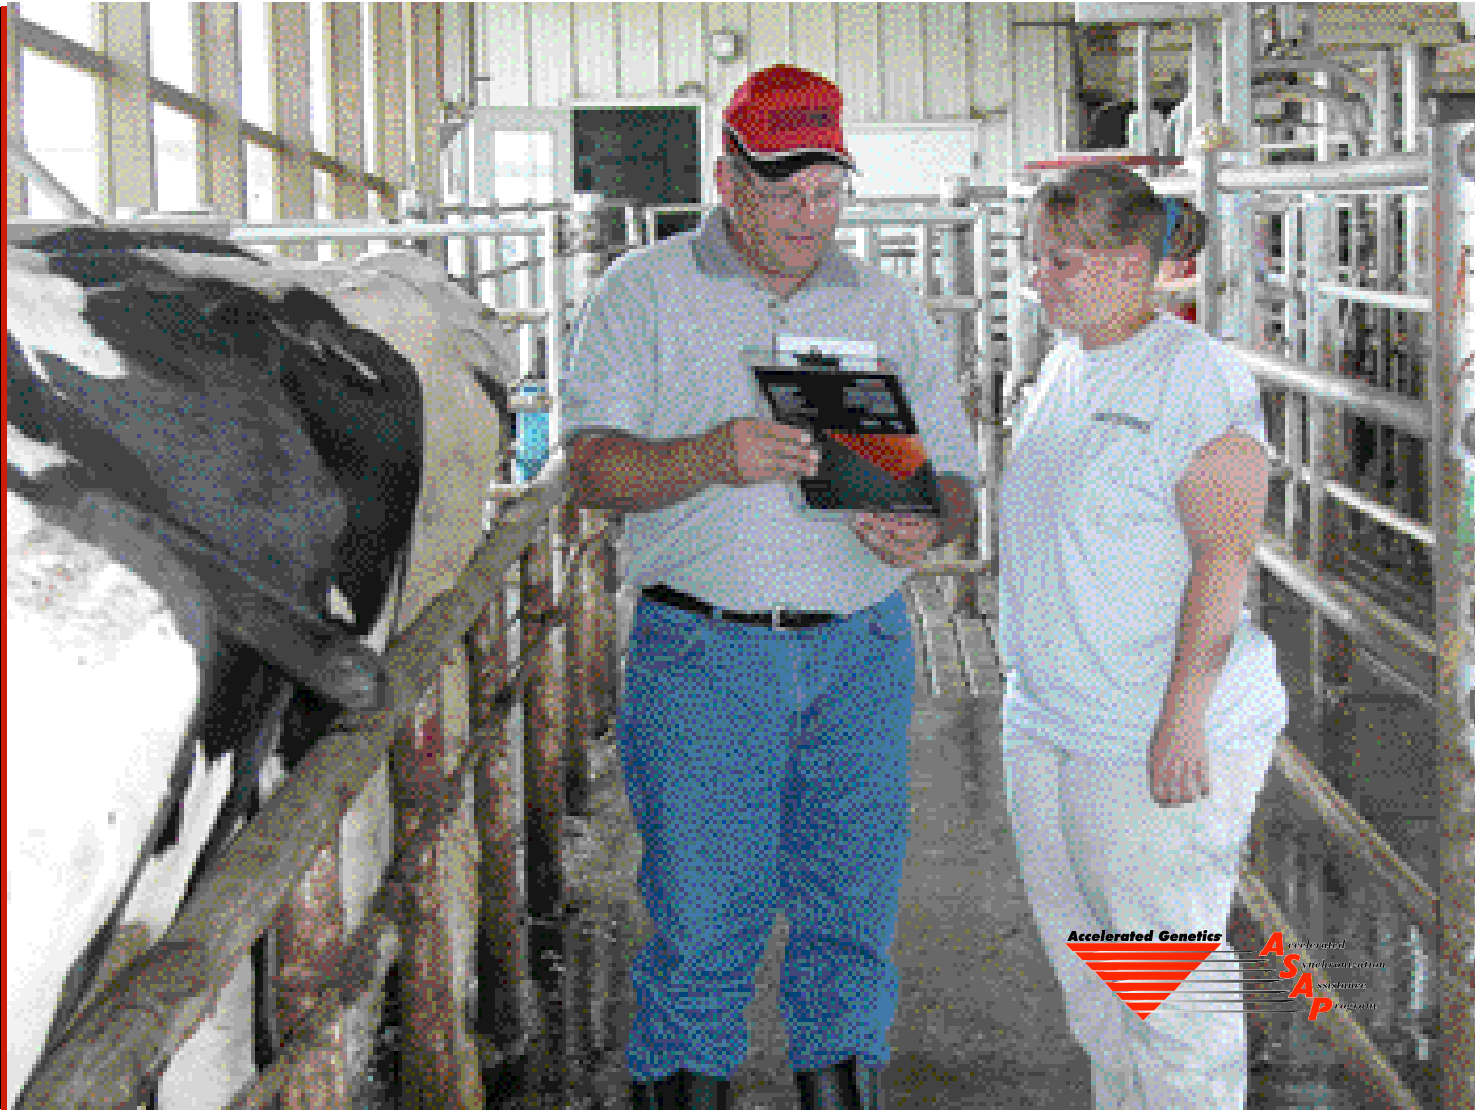

- Total control of reproduction in one single tool.
- Breed all your cows shortly after the end of the voluntary waiting period.
- Easy to operate even for people with little or no experience with computers.
- Easy combinations of proven synchronization programs.
- Daily reminders of scheduled events.

■ HERD HEALTH CHECK
■ BREEDING DAY
▲ ASAP ACTIVITY DAY

Bill Moriarity - Mauston, WI

“ASAP keeps you on a set program and has helped us maintain better records. We only work with the cows two days a week for all shots, breedings and herd health checks.”

Portability

- **ASAP** is independent and does not need another PC or software to work.
- All reproductive information is in your pocket!
- With **ASAP**, you can enter data cowside at the time of herd check or review individual animal information at anytime.

Randy Roecker - LaValle, WI

“It’s so portable. I can carry it everywhere and even synchronize my heifers. It’s a great way to keep track of shots, breedings and herd health days. I used to have papers laying all over the place.”

David Score - Boyceville, WI

“Nothing in my career has helped get rid of stress better than getting my cows on a synchronization program.

Now I am getting cows bred and pregnant. And by synchronizing my cows, it lets me work on other things.”
